2. The directors of Kingsley Tennis Centre also acknowledges and recognises the ratios of coaching groups and tournament activities and will adopt the recommended numbers as communicated by the LTA, so long as it is not to the detriment of the financial stability of the centre.

The above 2 policies will be conveyed to our Head Coach who will then apply them to the centre's activities on behalf of the directors of the centre. It will be the responsibility of the Head coach to convey these 2 policies amongst others, to the rest of the coaching team so that there is a consistent and formatted approach within the centre's program.
